Thanks for your interest in our upcoming seminar, created for parents and caregivers of children with autism.

ABA Therapy and Parent Involvement

This presentation will review over concepts and provide a rationale as to why caregiver involvement and participation during ABA services is integral to the child's treatment plan and progress. The presenter will provide an overview and facilitate discussion on how the child's family can work harmoniously with the ABA service team to support generalization and maintenance of skills across various environments to ensure lasting change and overall long-term success of your child.
